URGES NON-ALLIANCE WITH MAN'S POLITICS

Mrs. O. H. P. Belmont Would Have Woman Voters Work for New Civilization.

SAN FRANCISCO, September 15 .- The first business session of the Congres-siona; Union for Woman Suffrage, which is being attended by scores of prominent women from all parts of the country, began here today at the Illinois building at the Panama-Pacific exposition.

Urging her hearers to forego alliances and to work for a new woman-made civilization, Mrs. O. H. P. Belmont of New York, as general chairman of the

the delegates at a luncheon yesterday, which preceded the first business session of the convention.

Mrs. Belmont said:

"The woman voters of the twelve enfranchised states of our United States are here to form a body politic. It is the first time in the history of the world that women have moved politically. What does it signify? It means now, as it always has and always will, that when women come together to work, the moral, better side of human.

Miss Paul's View of Situation.

"This convention, representing 4,000,000 enfranchised women, marks, we believe, the beginning of the end in the long suffrage struggle. One-fourth of our national Senate, one-sixth of the national House of Representatives, one-fifth of the vote for President comes from states where women are voters. With this leverage there is every reason for us to believe that the national suffrage amendment will be passed by the Sixty-fourth Congress. The convention has been called to devise ways by which the woman voters may use their voting strength to win suffrage for all other women."

PROHIBITION VOTED IN SOUTH CAROLINA

COLUMBIA, S. C., September 15 .nofficial returns here early today from all forty-four counties of South Carolina indicated a majority of nearly 20,000 for state-wide prohibition in the referendum election held yesterday. Although the returns were not complete, it was said all but the smaller and more remote precincts were accounted for.

The vote tabulated early today showed 33,483 for prohibition and 14,341 for the present local option system, under which fourteen counties tem, under which fourteen counties now operate liquor dispensaries.
Should the efficial count show prohibition carried the new law will become effective January 1 next. It would prevent the sale of beers and wines as well as liquors, and is said to be so drawn as to leave but few loopi.eles.

Vote Anticipated Here.

South Carolina voting dry was anticipated by Washington temperance leaders who have kept in close touch with the trend of affairs in that state. It was expected, however, that the dry majority would exceed 20,000, which latest reports name as the figure. To investigators in the state it was said to be readily apparent that the rural population was desirous of get-ting rid of the dispensary system.

"The English established a trading factory," near present Archangel, during the reign of Ivan the Terrible, and since their coming the region has been exploited by pioneers, by adventurous traders, trappers, huntsmen and fishermen, but the country has never passed the pioneer stage. The roads, for the most part, are barely marked tralls, narrow, unleveled ribbons through vast forests, indifferently corduroyed causeways through swamp and marsh lands and uncertain tracks through the lands and uncertain tracks through the northern tundra. Post stations are lands and uncertain tracks through the northern tundra. Post stations are scattered over the governments, far apart, where hardy little horses and prehistoric types of conveyances are kept for the occasional trader, the occasional letter and the rare visitor. The villages are small and poor and forgetful of the modern world and all that it contains. Between them are leagues of solitude. Rivers Once Commercial Outlet.

"The northern Dvina and the Pechora are the two great rivers of the country and, before the railroad penetrated to

The famous and fabulously wealthy monastery of Solovetski an-nually attracts 15,000 pilgrims into the far north, to the wooded island four-teen hours' sailing from Archangel in the Gulf of Onega, on which it is sit-uated. This monastery was founded in 1429. It was bombarded by the Eng-

lish fleet during the Crimean war, ar the marks of hostile shells are sti

"The northern peasants are very in ependent, quite the most independent f all the Russians. They have the self-cliance and self-respect of true pio-eers, and, as free hunters in the forests and prospectors of the tundra, they share many of the characteristics of the free, careless people of our own early west and of the present Canadian west and of the present Canadian northwest. Lacking even in the rudiments of education, picturesque in their costumes, primitive in their customs, they are a simple, straightforward, stalwart and hospitable people.

WITH GERMAN U-BOATS

PARIS. September 15, 1:15 p.m.—The

ministry of marine announced today that measures had been taken which would enable the navy to deal with German submarines.

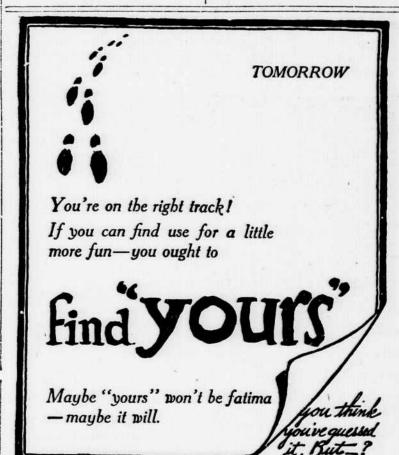

The official statement dealing with The official statement dealing with this subject was prompted by the activity of submarines off the coast of France, resulting in the sinking of several steamships in the last few days. The ministry states that there is no reason for alarm at the operations of submarines near the mouths of the Gironde and the Loire.

Necessary Precautions Taken.

"All necessary precautions were taker German submarines," the statemen says. "The present naval force near the mouths of the Gironde and Loire will be reinforced if necessary, but the measures taken against them in the English channel are so efficacious that they may be expected to be sufficient, and only occasional isolated aggressions are possible."
